California Ranch News

California and Southern States Ice Cream Manufacturers Association have decided to meet in Oakland, November 20, and 21, during the week of the Pacific Slope Dairy Show. This information was brought from Los Angeles by Secretary J. H. Kugler, following a meeting of the association directors in that city.

Changes in the Tokay grape color requirements of the California fruit, nut and vegetable act of 1927, will be discussed by growers, shippers and others interested at a meeting to be held at Sacramento this week. The session has been called by G. H. Hecke, director of agriculture.

Prospects for a record-breaking crop of persimmons this season are excellent, according to J. M. Alcorn, president of the Central Orange County Persimmin Growers' Association, who pointed out that more than 500 acres of persimmons are now under cultivation in Orange county and that a great percentage of this acreage is just coming into bearing.

Unless there is an exceptionally heavy drop of fruit in June, the Redlands district will have one of the largest navel orange crops in its history during the next season. Growers state there has never been a time when the promise for a big crop was better. The bloom was early, the set of fruit was heavy, and the oranges are of exceptional size to withstand the first hot days, which always cause a heavy drop of fruit.

California almond growers this year may profits by the losses of fellow growers in Spain. Short crops in almond districts of southwestern Europe are reported by United States department of agricluture representatives in London. In the Alicante district, as far north as Valencia, Spain, hardly half a crop will be produced, while at Mollorian the crop was also very poor.

Consumption of imported rice by Californians in preference to the home grown products has been bitterly condemned by Charles G. Johnson, state treasurer and one of the state's biggest individual growers. California rice, Johnson said, has a preferred market throughout the world, yet Californians last year consummed 20,000,000 pounds of Japanese, Chinese and Southern State rice, an amount almost equal to the annual surplus of the local product.

Formation of a new company controlling the output of 240 orchards and vineyards, as the result of increasing export of California fruit to the Orient and Europe, was announced last week. The company, headed by Captain William M. Stewart, will be known as the Superior Fruit Company, and will export fresh, canned and dried fruits, making use particularly of the new refrigerator services out of San Francisco to foreign markets. The Superior Fruit Company promises a marketing innovation in that both growing and distribution will be under its supervsion, insuring a first grade product to be exported.

What is said to have been the first public auction sale of fruits and vegetables ever held on the Pacific Coast took place in Los Angeles recently at the new building of the California Fruit Auction Company adjacent to the recently opened produce terminal market in the central manufacturing district. A considerable number of local buyers, representing markets, chain stores and other establishments using fruit and produce in quantities, appeared, and spent about an hour examining the stuff on the floor of the display room. Then the sale began. Prices were neither exceptionally high nor low, reports show. Sales will be held every day with the exception of Saturdays and Sundays, it has been announced.

Six hundred and fifty-seven Sacramento region farmers, owning 153,000 acres of farm land have endorsed the proposal for a state of California trade mark, which the producers or packers of California agricultural products may voluntarily stamp upon their labels. This announcement featured the monthly meeting of the Sacramento Region's Citizens' Council held last week. Simon J. Lubin, president of the council, stated that no particular effort had been made to obtain these endorsements beyond mailing a card from council headquarters.

Golden State
News of Interest to All

Building work at State institutions completed since July 1, 1927, involved expenditure of $1,533,025.19, Bert B. Meek, state director of public works, reported a few days ago to Governor C. C. Young. On these completed projects, Meek said, the Division of Agriculture saved $43,714.82 over the regular budget allotments.

Wild fires have taken a toll of more than a million dollars' worth of property in California and have caused at least two deaths, this early in the season. Yolo, Colusa, Butte, Tuolumne, and Tulare counties have suffered the heaviest up to this time.

The cornerstone of the new $100,000 Machinery Building, now under construction at the State Fair Grounds, will be laid by Governor C. C. Young on June 2, it has been announced. The state board of agriculture, the Traction and Implement Association, the California Irrigation Equipment Association, the Dairy Machinery Distributors and the Read Machinery Dealers will participate in the event.

With the election of Jack McDonald of San Francisco as district governor of the Lions' Clubs to succeed W. B. Wells of Pasadena, members of the organization closed their annual session at San Jose last week. Charles Adams of Berkeley was elected district secretary and Long Beach was chosen as next year's convention city.

The ruling of Attorney General U. S. Webb that state employes attending National Guard summer camps are entitled to their regular pay while absent will not result in a refund to those who attended camp last year, according to the announcement of Alexander Heron, director of the state department of finance.

Aroused by recently heavy losses from fires in grain and range lands, throughout the state, Frank G. Snook, chief of the state division of motor vehicles, last week launched a state traffic officer drive on all persons caught throwing burning material from automobiles. Snook's order calls for arrest of all motorists violating the fire law and for rigid enforcement of the statute prohibiting the throwing of burning cigarets, matches or tobacco from moving vehicles.

Sixty-one California cities now have standard model traffic regulations. These have adopted the uniform traffic ordinance sponsored by the Southern California State Automobile Association and the Automobile Club of Southern California to eliminate divergent regulations. Cities which have recently adopted the uniform code are Santa Paula, Colusa, Burbank, Fresno, Monrovia, Vallejo and Calipatria.

California is on the verge of very important improvements in court procedure—a tightening up in the administration of criminal justice and an elimination of red tape. Gov. C. C. Young makes this statement and he professes to see betterment of existing conditions in the immediate offing. The coming legislature, for instance, is more than likely to produce remedial measures of consequences, he thinks. "The object of court procedure," declared the executive, "should be the obtaining of substantial justice, not simply forensic contests between two smart attorneys to see who is the sharpest."

California, greatest of vacation lands, will have more than 6,000,000 motorists visiting its national parks and playgrounds during the summer months this year. This is more than twice as many as visit national parks in any other state. As soon as schools are closed for the summer and children can get away from lessons, the great migration begins in earnest. Thousands of motorists, unable to leave for extended periods, will drive to beaches and close-by parks and playgrounds. This change from the usual order results in added responsibility of the automobile driver, in avoiding accidents, particluarly involving school children.

Dr. Thomas F. Joyce of New York, recently retired from the New York City Department of Health, where he had charge of care and treatment of narcotic drug addicts, last week was announced as medical superintendent of California's new state narcotic hospital. Earl E. Jensen, state director of institutions, was in Los Angeles to confer with Dr. Joyce on personnel of the new hospital, which will be opened at Pacific Lodge, near Pomona, July 1. Lerop R. Bruce, secretary of the state department of institutions, stated that "New York authorities characterize the new superintendent as the best man in the country in handling the problems of narcotic addicts." The state narcotic hospital, ordered by the last Legislature, will be the first of its kind in California.

WATER MASS MEET ENDORSES PLAN

The water conservation mass meeting was called to order Tuesday evening at the grammar school by H. C. Smith, who acted as chairman.

Members of the water conservation district committee were present from Mountain View Sunnyvale, Santa Clara, Los Gatos and San Jose. A number of the directors of the Valley Water Conservation Association were in the audience. J. Fred Holthouse, vice-chairman of the committee, explained the purpose of the meeting, which was to ascertain how the landowners feel about forming a water conservation district under the Duvall act.

Senator Herbert C. Jones explained fully the provisions of the act speaking of it as an effort to get the maximum result in conserving water, with the minimum of expense. The act is very simple in operation, although not so simple as some others in getting under way due to the fact that a complete list of land owners, with their acreage, must be prepared by the Assessor before an election can be held. This list is necessary for the reason that the owner of land is entitled to one vote for each acre. Also the proponents of the district must put up a bond with the Supervisors agreeing to pay the preliminary costs of organization if the election should fail of carrying. Hence the desire of the committee finding out how people take to the idea before incurring any expense.

General discussion by those present showed a unanimity in favor of the plan and of the act. Mr. Frank Leib described at some length a method of saving water by percolation, which he is using on the Stevens creek. It appears that the ways of getting water into the underground gravels are almost too numerous to mention and each stream presents its own problem to find a way best adapted thereto. Stanley B. Smith offered a resolution substantially as follows: That the meeting indorse the plan which had been presented and ask the committee to proceed with the idea of forming a district which should include all of the valley within approximately the 300-foot contour line above sea level. On the south this is about the line of the S. P. railroad. The committee held a session following and decided to hold a similar meeting at Oak Grove school house, Wednesday evening, June 27th.

The Pacific slope, particularly California, is sending a considerable delegation to the World's Dairy Congress, which opens in London, Eng., on the 26th inst. Congresses are held at intervals of five years and include exhibits of live stock, implements and dairy machinery from all over the world. Each nation contributes its foremost experts on dairy subjects to speak before the sessions. The deletion from California is now on its way to Europe.

With goat grass gaining rapid headway on the range, cattle and sheep men of Calaveras, San Joaquin, Stanislaus, El Dorado and Sacramento counties have appealed to the state department of agriculture and county horticultural commissioners for aid in eradicating the pest. The grass, somewhat similar to wild barley, is injurious to both cattle and sheep, and renders pasture valueless.

By producing 787 pounds of butterfat in 305 days, a cow belonging to the College of Agriculture at Davis, has received the Gold Medal of Merit of the American Jersey Cattle Club. This is the highest award given by this organization. The Jersey, California Rindas Begonia, completed this remarkable production last December, when she was a junior 2-year-old. As a matter of interest, the average grade and purebred Jersey butterfat production per cow in California for 305 days is about 220 pounds and a cow must produce 740 pounds to be awarded the gold medal of merit.

MISS DUNPHY PAUL ROMER WED

Miss Harriett Dunphy became the bride of Mr. Paul Romer Saturday evening, June 16 at 8 o'clock. The wedding was a very quiet affair and was solemnized at the Dunphy apartement at 500 Oak street, San Francisco, Rev. W. E. Eckles of San Jose officiating.

Only the members of the families and a few intimate friends were present.

The bride was lovely in her wedding gown of white taffeta, with silver slippers and bouquet of tea roses, lilies of the valley and gardenias.

Refreshments were served in the dining room which was beautifully decorated with baskets and bouquets of flowers in pastel shades and pink candles in silver holders.

Early in the evening the young couple left on their honeymoon trip, going to their own home, which had just been built and furnished in San Anselmo.

After remaining there over Sunday they expected to take a two weeks' motor trip up the Feather river canyon.

Mr. Romer was born and reared in San Francisco and is connected with one of the large insurance firms of that city.

Harriet was one of our own girls and was loved by all. She graduated from the local high high school and then from the library course of the University of California.

CANNING SEASON OPENS MONDAY

Local canneries are rushing preparations for an unusually busy packing season. It is expected that the apricot season will begin earlier this year, June 25 being the opening day for the Geo. E. Hyde Co., that will can about the same quantity as last season.

This company will pack about 30 per cent more peaches than last year. Entirely local help will be used on apricots and about the same force of employees as last season will be used for the big peach pack, which insures a long season for the workers. Already many of the former fruit workers have arrived from their homes and registered for the season pack. This company will pack no pears this season, but will as in the past pack a large quantity of syruped prunes ready to serve. The J. C. Ainsley Company will begin the season next week and preparations have been made for a large pack.

The California Canneries canned a quantity of cherries this year and are now taking care of a few early apricots. Next week will see the plants all busy "in the fruit."

LOCAL STANFORD GRADS

Campbell has had the honor of being represented in many of the Stanford graduating classes and again this year several are receiving degrees. Yale Candee Maxon receives his B. A. in English, Margaret Louise Wood a B. A. in Romanic languages, Windsor Cooper Cutting, with distinction, school of medicine.

The degree of Master of Arts in Political Science was conferred upon Elta Lucille Alison, now a resident of Palo Alto, but a graduate of C. U. H. S., and degree of Doctor of Medicine on Walter Harold Farr, registered from Campbell, as his family lived here during most of his Stanford career.

These fine young people, who have attained such high honors are the best products any town can produce.

CAMPBELL HIGH SCHOOL GRADUATED LARGEST CLASS IN ITS HISTORY

The senior class of the C. U. H. S. was graduated Friday evening with a "different" commencement program.

As announced by Principal D. H. Cramer, the number of talented musicians in the class had suggested the idea of feautring Music and omitting a speaker, so with the assistance of the orchestra, to which several members of the class belonged and the addition of a few voices in the choruses the class furnished the program.

The opening number by the orchestra, the Processional, "American Youth March," by Fred Cauer. The entrance of the class in pairs up the two aisles was very pretty, the pastel shades of the girls' sleeveless gowns making a pretty harmony of color.

Rev. J. H. Bennett gave the invocation and also the benediction.

Further music at intervals, by the orchestra, with A. A. Thielke directing, was very well rendered. "Sweetheart," by Victor Herbert; "Rose Marie," by Rudolf Friml, "Lustspiel" Overture, by Keler Bela and the Recessional, "The United Liberty," by Tobacen.

Two choruses, "Goin' Home," by Dvorak and "God Remembers When the World Forgets," by Bond, sung by a mixed shorus, directed by Miss Marian Jenkins, showed thorough and careful training.

An unusual and quite unique number was a string bass solo, "When the Bells of the Lighthouse Ring, Ding Dong," by Solman, played by Miss Ethel Jenkins, who has been a valued member of the orchestra this year.

Eugene Tainter, president of the class presented the class gift, a number of valuable books of travel and world geography of today, which were accepted for the school by Elmer Lloyd, student body president.

At the same time, Miss Jenkins, class advisor for four years, was presented with a beautiful basket of flowers, accompanied by an expression of appreciation on the part of the class.

The next number was a vocal solo, "Would God I Were the Tender Apple Blossom," by Katherine Tynan, sung by Stephen Merrill, whose sweet tenor voice has been a valued adjunct to many school programs and social affairs. He repeated part of the selection in response to a continued demand.

Ray Thomas, a saxaphone artist, played a difficult solo, "Enchantress," by Felix Viver, which met with rounds of applause.

The presentation of diplomas which is always such a happy part of the event was made by Mr. Cramer.

Miriam Blaine, who had acted as accompanist for the other numbers, played a charming solo, Koeling's "Hungary."

After the exercises the class marched to the cafeteria where the reception was held.

The class flower was the sweet pea and their colors, pink and green.

The motto, "We Finish to Begin," did not appear in the decorations, but was a very fine one, if really carried out in the future.

KIWANIANS MEET WITH INTERNATION'L

All Kiwanis night was celebrated Monday evening, while the International was in convention at Seattle, by holding an enjoyable picnic lunch with the ladies present.

Roger Darling, prominent undertaker of San Jose, spoke on four ideals of a good Kiwanian, laying particular stress on the encouragement of a daily living by the golden rule. Courtesy and appreciation are strong factors of such living.

Secondly, make such friends as are worth while and staunch. At all times render altruistic service to your community and friends and never loose sight of the spiritual value of things.

"It's the motto you live that counts." He closed with the following poem:

BUSINESS IS BUSINESS

Business is business, but men are men,
Loving and working, dreaming;
Toiling with pencil or spade or pen,
Roistering, planning, scheming.

Business is business, but he's a fool,
Whose business has grown to smother
His faith in men and the Golden Rule,
His love for a friend and brother.

Business is business, but life is life,
Though we're all in the game to win it,
Let's rest sometimes from the heat and the strife
And try to be friends a minute.

Let's seek to be comrades now and then
And slip from our golden tether;
Business is business, but men are men
And we're all good pals together.

Jas. Farley of the Pacific Lumber Co. gave an interesting talk on the lumbering industry of Northern California. One of the most interesting items is that reforestation is progressing so rapidly that already more seedlings have been planted than have been cut off in the past.

Ten are planted to every one cut.

Hal Morton showed his film pictures of the family's visit to the big redwood lumber country north of here giving a very detailed and interesting account of the pictures and side-lights on the industry.

His Pictures are real educational and he has had several calls to show them elsewhere.

Tuesday evening Wilbur Henning will speak to the Club on "Port San Jose."

STATE PRESS ANNUAL

Mr. and Mrs. H. C. Smith plan to leave Sunday to join the State Editorial Association in its annual outing, which this year, will take them to Medford Oreg., by train, thence by auto to Crater Lake, where four days will be spent. The return trip will be made by way of Klamath Falls to Weed, where the party will entrain for the remainder of the homeward journey.

Mr. and Mrs. S. N. Hedegard and family left Wednesday for the San Joaquin valley where they will spend a week looking over rice fields and then going on to visit in Fresno.

SKETCHING TAHOE

Mr. and Mrs. F. H. Cutting and son, Theodore, have gone to Lake Tahoe where Mr. Cutting will make some sketches and of other scenery in the Sierras. They expect to be gone for several weeks. Mr. Cutting is very skilful in reproducing California landscapes upon canvas and will undoubtedly bring home some lovely views.

Mr. and Mrs. B. O. Curry are among those enjoying the big international convention of kiwanis at Seattle this wek. The urge was too strong for Ben's resistability.

Quotations from Hall of Fame

Thought is the property of him who can entertain it, and of him who can adequately place it. .. —Emerson.

* * * * * * *

It is no flattery to give a friend a due character, for commendation is as much the duty of a friend as reprehension.
—Plutarch.

* * * * * * *

The Labor party is under no delusion that national capital consists in money only; it also consists in human health, happiness and willingness to serve.
—Ramsay MacDonald.

* * * * * * *

He who, in questions of right, virtue or duty, sets himself above all ridicule, is truly great, and shall laugh in the end with truer mirth than ever he was laughed at.
.—Lavater.

* * * * * * *

Never forget, mothers that your children will treat you exactly as you have taught them. — Dorothy Dix.

* * * * * * *

A parent gives life, but, as parent, gives no more. A murderer takes life, but his deed stops there. A teacher affects eternity; he can never tell where his influence stops.
—Henry Adams.

VOYAGERS
(By Ruth Comfort Mitchell)

A tired old doctor died today, and a baby boy was born—
A little new soul that was pink and frail, and a soul that was gray and worn,
And—halfway here and halfway there—
On a high white hill of shining air,
They met and passed and paused to speak in flushed and hearty dawn.

The man looked down at the soft, small thing with wise and weary eyes,
And the little chap stared back at him with startled, scared surmise:
And then he shook his downy head—
"I think I won't be born," he said.
"You are too gray and sad!" He shrank from the pathway down the skies

But the tired old doctor roused once more at the battle-cry of birth,
And there was memory in his look of grief and toil and mirth.
"Go on!" he said. "Its good—and bad:
Its hard. Go on! Its ours, my lad!"
He stood and urged him out of sight, down to the waiting earth.

TELEPHONE GERMANY

Trans-Atlantic telephone service from America to the entire German republic was available on Wednesday, June 6, according to the announcement made today by the Pacific Telephone and Telephone Company. On the American side this service will include all parts of the United States, Cuba and the principal cities of Canada.

The rate to all points in Germany will be the same as the present rates from this country to Berlin. The hours of service for trans-Atlantic calls to all foreign nations were extended one hour on June4, making connections possible from 2:30 a. m. to 6 p. m. Pacific standard time. These hours correspond to 12:30 p. m. to 4:00 a. m. German summer time.

At the present time trans-Atlantic telephone service is available to all of Great Britain and to individual cities on the continent of Europe. The first service to Germany was formally inaugurated on February 10 of this year when communication was opened between America and Berlin, Hamburg and Frankfurt-on-Main. On March 19 the service was extended to the four additional cities of Bremen, Dusseldorf, Cologne and Mannheim.

With the addition of all German telephones on June 6, any American business or residence telephone may be linked to any one of nearly 25,000,000 out of the estimated 31,000,000 instruments in the world, or more than 80 per cent of the total.

FEDERATION OF MEN

A wonderful move has been made by the Protestant Churches of San Jose and District to bring all its men into a live Federation. Last Tuesday evening at the Y. W. C. A. a small Executive Committee of laymen was appointed to start-off the organization. It aims to unite all men and mens Brotherhoods and societies into an organization all to express its will and not only is enabling our Churches to be more effective but also to stand behind our authorities in their struggle against law breakers and vice.

Rev. J. H. Bennett, Rev. C. Robins, Dr. W. I. Merrill, and Dr. W. L. Allen attended the meeting. All men are asked to be ready to answer to the first call. It is hoped to be able to have a Mass Banquet and meeting this July.

Material assistance will be given state governments in meeting the unemployment situation if Congress passes the Wagner bill establishing a national employment system, according to Will J. French, state director of industrial relations. The legislation, introduced by U. S. Senator Robert F. Wagner of New York, would provide $4,000,000 for the fiscal year ending June 30, 1929, and for each subsequent year up to 1932. The states, French says, would be allotted about 75 per cent of this money on a population basis.

California's peach crop this year will break all records totaling 602,000 tons, of which approximately 395,000 tons will be clingstones, or canning peaches, it was predicted a few days ago by E. E. Kaufman, state-federal agricultural statistician. The expected 602,000 ton crop was compared in the announcement with 492,000 tons of all peach varities in 1927 and 541,000 tons in 1926. The present condition of clingstone peaches, 86 per cent of normal June 1, will give a crop of about 395,000 tons, or 73,000 tons in excess of the crop last year, Kaufman said. At this time last year clingstones were 73 per cent of normal.

California dropped 80,544 long tons of beet suger into the nation's sugar bowl in the 1927-28 season, according to a report issued by Harry A. Austin, secretary of the United States Beet Sugar Association. California ranked fifth among the beet sugar producing States of the Union. Beet sugar production for the United States totaled 965,241 long tons from 723,973 acres, Production for the 1927-28 season was one of the largest on record, having been exceeded only twice—in 1924-25, when the output reached 974,185 tons, and in 1920-21, when it totaled 969,-419 tons. The 1927-28 production was 163,995 long tons in excess of the 1926-27 yield.

The Upland Citrus Association has been packing Valencias for several weeks, and it is expected that the shipments of the association for the season will amount to 250 cars or better, which will be nearly double last year's crop. The association is shipping only a few cars at a time, sending them out as market prices rise to a good figure, and to this practice are ascribed the very satisfactory prices which the association reports, one carload having been sold at $7 a box.

Packing operations for apricots are in full swing at the Thermalito packing sheds of the Butte County Citrus Association. The work began a few days ago and is scheduled to continue all this week. The fruit is bringing growers a price of $1.75 f. o. b. Following the pack, Climas, Formosa and Santa Rosa plums will be received.

Raw milk producers of Tulare county are laying their plans to vigorously combat any effort to curb distribution of raw milk through a statewide compulsory pasteurization law.

The Small Investor

THE man with a few thousand dollars to invest is confronted with a bewildering range of possibilities, and not many are qualified to make their stock or bond selections unaided. Investors may obtain the considered judgment of the American National Company, affiliated with the American Trust Company, without obligation. The judgment of this investment house is based on a thorough knowledge of underlying values and an understanding of the investor's requirements. Costly mistakes may be avoided by taking advantage of the American National Company's advisory service.

Picnic Dishes at Smith's

Miss Verna Cutting has been elected to teach domestic science in the Los Banos schools next year.

C. W. Wolff of the Ainsley office force is on the crippled list suffering from an attack of sciatic rheumatism.

R. J. Chapman and family and Miss Estelle Thompson arrived Saturday from Flandreau, S. D., where they have spent the past year.

Miss Helen Chaney of Lead, S. D. is the guest of her friend, Mrs. C. H. Whitman. The ladies were intimate friends when living in Centerville, S. D

Mr. and Mrs. Edwin Parker, who had been vacationing at Stateline, were here the first of the week visiting Mrs. Elizabeth Duncan and other relatives.

Mr. and Mrs. Theodore Cutting and sons, Windsor and Cecil, left Wednesday on an auto trip that takes them to the Atlantic Coast where they will visit many places of note.

Mrs. Helen Johnson, Noble Grand of Ada Rebekah Lodge, gave a banquet in the I. O. O. F. Hall Wednesday evening to the officers and the degree staff of the chapter.

Madeline Byrnes, little daughter of Mr. and Mrs. C. C. Byrnes, who was operated upon for appendicitis has made a wonderful recovery and is sitting up and will be about again soon.

Mrs. E. R. Jenkins and daughters, Misses Marian and Ethel, left yesterday for a day in Oakland before going to their home at Santa Maria. Miss Ethel will attend junior college at her home town next term.

Cherokee Campfire Girls of Campbell enjoyed part of the week at Redwood Estates in Santa Cruz mountains. They were chaperoned by their guardian, Miss Marian Jenkins of the high school faculty. Among the entertainment features were a hike to the summit of the range and early history stories of that region.

Think of Shadle's for cameras and developing.

Mrs. Mary Williams has bought a lot in the Joe Souto tract on North Central and is having a cottage built.

Mr. and Mrs. R. B. Hummel left Wednesday by auto for trip south on which they will combine some business with their outing.

Mr. and Mrs. C. B. Miracle left the first of the week from Stateline, Lake Tahoe, in company with friends, on a camping trip to the grand canyon in Arizona.

Chas Ludwig and son, Will, of Berkeley, were here Monday for a short time on their way to Santa Cruz where they were going to indulge in some deep sea fishing.

Mr. and Mrs. O. Strom and family left yesterady for the Yosemite for a few days after which Mrs. Strom and daughters will go to Captola to spend some time at their cotage.

Stephen Merrill spent part of the week in San Luis Obispo with his uncle, Ralph Cookson. He expected to return today and will go to Camp Roberts, the Y. M. C. A. camp for boys, near La Honda.

Rev. and Mrs. G. W. Sower and daughter, Miss Muriel of Laingsburg, Mich., are expected to arrive in Campbell tomorrow to visit his brother, E. E. Sower. Rev. Sower, is pastor of the Methodist Church of that city.

C. H. Whitman, dean of Campbell merchants and hardware dealer, has been adding to the display of his goods by a new lot of shelving and several new floor tables. He now has one of the best hardware stores in the county and has his goods so displayed that he who runs may read.

Jas. F. Knappen, who taught in the Pasadena Junior Hi this past year and who has just spent a week enjoying the beauties of La Jolla, will arrive Sunday. He will attend Stanford summer session and the coming year will teach Spanish and French in the Marysville Hi and Junior College.

The L. D. Maderis family arrived from Oakland this week and have moved into Mrs. Ethel Davis' house on N. 1st. street. Mr. Maderis is the assistant in E. E. Sower's repair shop and has been here for a short time. He is a high grade workman and will be able to relieve Mr. Sower for and occasional holiday.

Think of Shadle's for prescriptions.

CAMPBELL PROUD OF FINE GRADUATES

Thursday, June 14, was a red letter day for the graduating class of the Campbell Union Grammar School, ushering in a new experience to a larger class.

Rev. Howard McConnell of San Jose was the speaker of the evening. After praising California school buildings in general and ours in particular, as one of the finest of its kind in the State, he gave the class a very interesting and instructive talk on "Life as an Investment." After all is said and done life is the big investment and one should make a study as to the line of this investment and one should worry before making the investment rather than after. One should have an objective toward which to strive and this objective should be linked up with some social cause. Above all things make friends as this is one of your best investments and will greatly aid you in your activities and accomplishments. Conserve your energy that you may expend it inchannels of the great benefit.

Mr. W. C. Bohnett gave a very pleasing violin solo accompanied by Emily Pannell Gard at the piano.

The diplomas were presented the class by Principal I. R. Abbott, assisted by Miss Hancie Naylor, the popular class teacher and advisor. The following were graduated:

Freda Atkins
Della Barbano
Harry Bloom
Marguerita Bohrman
Albert Buerer
Olive Cardoza
Aletha Carson
Pauline Costello
Geneva Di Fiore
Brenton Goddard
Dorothy Goddard
Frank Gomes
Nadene Gruwell
Billy Hall
Evelyn James
Margaret Kelm
Peter LaBarbera
Warren Lea
Mary Mason
Louis Manina
Dominic Manina
Nick Mazzone
Elmer McCay
William Norris
Tom Ozawa
Perley Payne
Anna Ribisi
Dick Robinson
Eleanour Rogers
Opal Sargeant
Mary Sawtelle
Dorothea Willis
Muriel Wilson

Honor students of the graduating class:

Albert Buerer
Billy Hall
Louis Mamini
Tom Ozawa
Marguerite Bohrman
Dorothea Willis
Nadene Gruwell
Geneva Di Fiore

Billy Hall representing his class presented the school with a wicker radio table to match other stage furnishings.

The gift was accepted for the school by Julius Costello with a few appropriate remarks.

Benediction was offered by the Rev. W. C. Robins, which was followed by a piece by the school orchestra under direction of Edward Towner, instructor.

One noticeable and commendable feature was the uniform dress of the girls that made a very pretty and attractive appearance and solicited much favorable comment

The actuarial report on the old age pension proposed for veterans state officers and employes is expected to be in the hands of the commission investigating the proposal this week, William A. Johnstone, president of the state civil service commission and head of the pension board, announced. The commission already has reeceived answers to questionaires sent state workers, and is studying them preparatory to formulating the report to Governor Young and the Legislature as soon as it can consider the financial phase of the question. The actuarial review is being prepared by Barrett M. Coates, San Francisco, and Profesosr A. H. Mobray of the insurance department of the University of California.

Appropriation of between $70,000 and $80,000 for State research into economical and efficient methods of sewerage and trade waste disposal was requested of Governor Young last week by a committee of the California League of Municipalities.

ARDELLA HAMILTON

Daisy Ardella Storrs Hamilton was laid to rest Monday of last week, the Rev. W. C. Robins conducting the service from the home of T. E. Marrs. Interment was at Oakhill.

Mrs. Hamilton was born in Tehama county in 1875. At the age of 17 she came to Campbell to live with Mrs. Briggs-Waddell and had lived here since.

She was married to Robert A. Hamilton and to them was born a son Austin, who was a member of this year's high school graduating class.

She joined the local Methodist Church shortly after coming here and had been an active member to the time of her last illness. Mrs. Hamilton was esteemed very highly by all who knew her and the quantities of beautiful floral offerings was silent testimony from her many friends.

The sincere sympathy of the community is extended the bereaved husband and son.

She is survived by a sister, Rose Waddell, two brothers, J. T. and George Storrs.

ELIZA NEWTON

Mrs. Eliza Newton passed to her reward June 14, at the age of 55 years after a serious illness of several weeks.

She is mourned by a large circle of friends limited only by her circle of acquaintance.

She is survived by a devoted husband, Fred, and a son, Robert, a daughter, Ruth, and two brothers in Minnesota.

The funeral services were held Monday from the home on Hamilton avenue by the Rev. W. C. Robins and interment was at Santa Clara Protestant Cemetery.

New Golf Club Lets Contract For Water System

The contract for installing the water system at the Rinconada Country Club has been let to the water Works Supply Company of San Francisco. President W. G. Sprague said yesterday, it cost about $25,000 to put water on the greens and work will start at once. The contract calls for the job to be finished in 45 days. In the meantime work will be pushed on the fairways, etc.

"We want to have the seed planted for the greens by the time the water is ready for use," said President Sprague. "We are going ahead just as fast as we can, and there will be no delays if we can help it."

Many have asked what Rinconada means. It is a Spanish word and is equivalent to the French word, rendezvous, hence a meeting place.

State Ships First Carload of Dates

Again California products make history in the Eastern consumer markets.

The first carload of dates ever shipped in the United States recently rolled out of Indio, in Pacific lines for New York. The refrigerator car carrying 26,000 pounds of iced Deglet Noor dates is the first of three cars to be shipped this year. It marks another milestone in the fruit growing industry.

The first commercial date shipment was made four years ago. Since that time production has steadily increased until this year when the first carload was shipped. The dates are packed in ten and twenty pound cartoons under the direct supervision of the Deglet Noor Date Growers' Association. There are about 50,000 date trees now planted in Coachella Valley and the production is doubling each year. The railroads made the first market for the growers by placing the dates on its diner menus and selling them to passengers.

Lloyd S. Tenny, for the last two years chief of the bureau of agricultural economics of the United States department of agriculture, has resigned to accept the appointment of vice-president of the Associated California Fruit Industries, Inc., and the California Vineyardists' Association, effective July 1, announces Donald D. Conn, managing director of the cooperative organizations. Tenny will have headquarters in San Francisco and will be in charge of relations with fruit shippers and will conduct the policies of the two associations with reference to improvements in marketing practices.

Stanford Is In Need of More Revenue

STANFORD UNIVERSITY,, June 20.—This university opened its doors in 1891 with 465 students. Today it has enrolled over 3,000 students, with a faculty increased to meet present conditions. Stanford is now appealing for more funds to carry on it's work. The original endowment made by the Stanford estate no longer provides an income sufficient to meet reasonable requirements.

When the University faced the rapidly mounting operating costs of the post-war period, it became imperative to charge for tuition. It is believed that these fees have about reached the limit, and cannot be increased without hampering the usefulness of the University. Tuition charges must be kept as low as possible in order to give the advantages of a higher education to properly qualified students who have the will to secure one-third of the cost of construction; the rest must come from the endowment funds.

Additional funds, through gifts, are needed in order that Stanford may assume its full obligations as a great foundation for public service. This University is now behind Yale, Harvard, Columbia, and Chicago, only in income producing endowment, but in physical equipment and biuldings.

One of the immediate problems of Stanford is to develop further its simple and unsable educational plant. The expansion in the range of the departments with advancing knowledge, the increase in the size of the libraries, and the growth of the scientific collections have compelled makeshift arrangements which natural lower the University's efficiency. More buildings are needed and there is constant necessity for replacement of deteriorating equipment.

New Forestry Commission To Organize

SACRAMENTO, June 20. California's new general staff of forestry, the seven-member State Board of Forestry recently named by Governor C. C. Young, will hold its organization meeting at San Francisco June 23, it was announced today by Fred G. Stevenot, director of the State Department of Natural Resources.

Former Governor George C. Pardee, head of the East Bay Mnuicipal Utility District and chairman of the State Board of Forestry from July, 1919,, to November, 1923, will be returned to his post as chief of staff, it was indicated.

At the organization meting, which will be held in the Ferry Building, the board is expected to set up definite policies and map tentative plans for a far reaching program to meet the problems of conversation, fire prevention and fire suppression now confronting the state.

"Did you ask her if you could see her home?"

"Yes."

"What did she say?"

"She said she would send me a picture of it."

The smooth top on the new Gas Range keeps cooking utensils clean

When you are in your kitchen you put on an apron, even if your kitchen is spotlessly clean.

Gas is a clean fuel. However, a smooth top is built into the new Gas Range to give you added cleanliness.

The smooth top protects the gas burners from food that would otherwise boil over onto the burners. For clean burners mean clean heat. The smooth top distributes heat evenly and one burner keeps several vessels boiling. It sends products of combustion up the flue.

See the new Gas Range with the smooth top built into the range for added cleanliness. Enjoy this range's fine cooking.

BANKERS PROMOTE FARM CONTESTS

Standard methods of farm administration have been made the basis of a contest by bankers of Pickens County, Alabama, as a method of bringing a farm and home program to their patrons, says the bulletin of the Agricultural Commission, American Bankers Association. A safe and profitable farm community is the goal in this work.

The farm and home program has been outlined as follows:

Standard Farm Scorecard

Total Net Income:		
Per plow	15 points	
Per worker	15 "	
		30 points
Total Diversified Income:		
Cotton	4 points	
Corn	2 "	
Poultry	2 "	
Hogs	2 "	
Cows	2 "	
Garden produce	2 "	
Dairy products	2 "	
Fruit and melons.	2 "	
Miscellaneous	2 "	
		20 points
Soil Building:		
Legume crops	8 points	
Rotation of crops	8 "	
Fertilizer	4 "	
		20 points
Farm Supplies:		
Food for stock	5 points	
Food for workers	5 "	
		10 points
Business Ability:		
Farm management	4 points	
Records	3 "	
Investments	3 "	
		10 points
Home Efficiency:		
Conveniences	5 points	
Appearance	5 "	
		10 points
Grand Total		100 points

A booklet explains the contest to the bank patron and urges him to enter by securing a record book from his bank. The winner for the entire county receives a grand prize of $100. The county is divided into districts with $75 and $50 prizes for each district.

Orchard surveys in the Victor Valley show that a good crop of apples, pears and peaches has set. Apricots were killed by frost in some localities, but there will be an abundance of plums, prunes and grapes.

H. A. Lynn, manager of the Riverside-Arlington Heights Fruit Exchange announces that the f. o. b. returns to growers in the organization will approximate $3,000,000 for this season, or about 25 per cent less than last year's figure, which was $4,071,000. The exchange shipped 1424 carloads.

California's total estimated daily average crude oil production increased 4,000 barrels during the week ended June 9, figures released by the American Petroleum Institute show. The total estimated daily average crude oil production for the State last week was 644,800 barrels as against 640,800 for the week ended June 2.

Anthony H. G. Fokker, airplane designer and builder, has announced his intention of building a factory on the Pacific coast. Fokker built the trimotored airplane Southern Cross, recently on a transpacific flight. "Naturally I cannot designate the location of the factory yet, but when it comes it will cost at least $500,000 and will turn out from 300 to 500 planes per year. We are planning several models in addition to those we now are building, among them a sport plane for private use, which will be two or three passenger, according to motive power, and will cost in the neighborhood of $1,500," Fokker said.

CHANDLER COUPE — Good rubber and mechanical condition; "she ain't what she used be," but at $50, she's a bargain. C. W. Shumway, R 1 Box 3A. San Jose Los Gatos orad.

NOTICE TO BIDDERS

At a meeing of the Board of Trustees of the Campbell Union Grammar School held in the office of the Principal, June 14th, 1928, a resolution was passed calling for sealed bids for two school bus chassis having six cylinder motors, 4-wheel brakes, drop frame, 32x6 tires with dual rear wheels.

Bids will be opened in the office of the Principal July 7th, 1928, at 8 o'clock p. m.

The Board reserves the right to reject any or all bids.

Signed:
S. N. Hedegard,
Clerk.

ORDER TO SHOW CAUSE IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SANTA CLARA.

In the Matter of the Application of CLANCY AND CULLEN.INC., a corporation, to change its corporate name.

Clancy and Cullen, Inc., a corporation having filed herein its verified application praying for an order of this Court authorizing it to change its corporate name to Clancy and Semas, Inc., and good cause appearing therefore,

It is ordered that Friday, the 29th day of June, 1928, at 10 o'clock A. M. of that day, or as soon thereafter as counsel can be heard, at the Court Room of said Court, in Department 3 thereof, in the Court House in the City of San Jose, County of Santa Clara, State of California is hereby set and fixed by me as the time and place for the hearing of said petition, when and where any or all persons interested in said matter are ordered to appear and show cause, if any they have, why said application should not be granted, and it is further ordered that a copy of this Order be printed in the Campbell Press, a newspaper of general circulation published in said County at least once a week for four consecutive weeks before the hearing of said petition.

P. F. GOSBEY,
Judge of said Superior Court.
ROBLEY E. MORGAN,
Attorney for Petitioner.
